

Dear HTL Stocklist Member,

Please find below our latest stock update. (This will come out every Friday unless stock changes throughout the week)

If you rather this email is sent to a different email address or an extra email address, please let me know.

Please bear with us as we get established with this new stock programme, at first the delivery time will be a bit longer than 10-15 days, as we have stock coming in on 5 different containers from now until November – once we have received all of our stock then you can quote 10–15-day delivery (after payment). We will order more stock along the way, to what is being sold in stores.

I have some photos from HTL – These are on your portal on the website (too big of a file via this email) you can copy the image off from the portal. Any issues please let us know and we can always ‘we transfer’ them to you.

Feel free to check with the office prior to giving a delivery time.

**Stock order process as follows: Place order with Minerva for Stock models. Minerva replies by return, with a sales order confirmation and invoice. Once invoice is paid delivery note is released to Westmid Logistics. Delivery hopefully 10-15 days from Westmid Logistics receiving the delivery note.**

**For items sold from containers that have not arrived yet, your invoice will be issued before the ship reaches port as normal.**

**RS-13046 - MIL-104-Oyster Fabric**
